## **Road Test Information**

### Preparation for license road test

Once the student's certificate of completion is recorded at the RMV site, a license test can be scheduled either online or by phone on the RMV.

There are three options open to you for this test

1. Parent sponsor- Be sure the inspection sticker and plates are up to date. Also, the lights, horn and emergency brake must work. This vehicle must have the emergency brake in the center. Bring the registration, and your license when you go into the Registry. Your child will need permit, and application. Pay ahead of time when you make your appointment.
2. Private auto schools- They have the tests on weekends and their time frame is faster than the RMV. The cost varies for the auto schools.
3. Our instructor and vehicle- This is only an option with the availability of the instructor and vehicle. If you wish to have our vehicle go on the road test with the instructor as the sponsor, the cost is \$100 check (this includes a review lesson) payable to the Town of Canton. We only go to Brockton or Braintree RMV for a road test. After you have make your appointment, contact me.

No matter which option you decide the cost of the road test is \$35 and the license fee is \$50 which you will pay when you make your appointment.

Sincerely,

Kathleen Osborne
