Derek Folan, CHS Principal
Sarah Shannon, GMS Principal
David Brauninger, Hansen Principal
Christine McMahon, Luce Principal
Yeshi Lamour, Luce Principal
Donna Kilday, PreK-2 Coordinator

Goal: By the end of this workshop, the goal is to have:

- An understanding of the current state of CPS

Principals' shared stories by grade span focusing on the following areas:

Student Experience

Through the eyes of the student
Online v Remote Learning
What are we asking students to do?
Home support
We educate all
Connection & belonging - social-emotional support - academics

Staff Experience

This experience is helping teachers learn from each other in ways that we didn't imagine before. Teachers are working, differently but collaboratively, to figure out what terms to use and how to share work in a way that is manageable for kids and makes sense. The adult learning that

is happening now will have a positive impact on our practices moving forward.

Parent Experience

Family's have unique needs
Oversight that is required
School/parent partnership

Student Engagement & Accountability

How do we hold students accountable to their learning while guarding against long term damage
Being a member of the learning community
Equity - Understanding of students' experiences
Engagement in learning required/no longer optional
