SCHOOL/COMMUNITY RELATIONS GOALS

The School Committee believes that the District is an integral part of the community and that community support is necessary for the District's operation and achievement of excellence. The School Committee and District staff members recognize that community support is based on a mutual exchange, a dynamic process in which the District contributes to the community's success and, in turn, benefits from the community's resources.

In order to maintain productive relationships with the community, the District is committed to sustaining:

Effective, accurate, and meaningful communications that facilitate dialogue, encourage involvement in District programs, and create community advocacy for its public schools.

Volunteer programs that provide mutually enriching experiences for our students, staff, and community volunteers.

Recognition programs that publicly honor the contributions of our students, employees, and community partners and express pride in our individual and collective accomplishments.

Community service efforts which enable the District's staff and students to express their commitment to the community.

SCHOOL/FAMILY RELATIONS GOALS

It is the general goal of the Canton School District to foster relationships with families that encourage cooperation between the home and school in establishing and achieving common educational goals for students.

While families are individually responsible for their children, the District provides direct services of education and indirect services of care for students when they are within the supervision of school personnel. Consistent with these shared responsibilities and as appropriate to the student's maturity, members of the school staff will consult with families regarding student progress and achievement, methods to enhance student development, and matters of correction.

Additionally, family involvement in the schools is encouraged through regular communication with the school Principal and staff, the family/teacher organizations, the school volunteer program, and other opportunities for participation in school activities and District programs.

NON-CUSTODIAL PARENTS' RIGHTS

As required by Massachusetts General Law Chapter 71, Section 34H, a non-custodial parent may have access to the student record in accordance with law and Dept. of Elementary and Secondary Education Regulations. The school district will follow the law and the regulations developed by the Massachusetts Dept. of Elementary and Secondary Education to standardize the process by which public schools provide student records to parents who do not have physical custody of their children ("non-custodial parents").

As required by M.G.L. c. 71, § 34H, a non-custodial parent may have access to the student record in accordance with the following provisions.

- (a) A non-custodial parent is eligible to obtain access to the student record unless the school or district has been given documentation that:
 - 1. The parent has been denied legal custody or has been ordered to supervised visitation, based on a threat to the safety of the student and the threat is specifically noted in the order pertaining to custody or supervised visitation, or
 - 2. The parent has been denied visitation, or
 - 3. The parent's access to the student has been restricted by a temporary or permanent protective order, unless the protective order (or any subsequent order modifying the protective order) specifically allows access to the information contained in the student record, or
 - 4. There is an order of a probate and family court judge which prohibits the distribution of student records to the parent.
- (b) The school shall place in the student's record documents indicating that a non-custodial parent's access to the student's record is limited or restricted pursuant to 603 CMR 23.07(5)(a).
- (c) In order to obtain access, the non-custodial parent must submit a written request for the student record to the school principal.
- (d) Upon receipt of the request the school must immediately notify the custodial parent by certified and first class mail, in English and the primary language of the custodial parent, that it will provide the non-custodial parent with access after 21 days, unless the custodial parent provides the principal with documentation that the non-custodial parent is not eligible to obtain access as set forth in 603 CMR 23.07 (5)(a).
- (e) The school must delete all electronic and postal address and telephone number information relating to either work or home locations of the custodial parent from student records provided to non-custodial parents. In addition, such records must be marked to indicate that they shall not be used to enroll the student in another school.
- (f) Upon receipt of a court order which prohibits the distribution of information pursuant to G.L. c. 71, §34H, the school shall notify the non-custodial parent that it shall cease to provide access to the student record to the non-custodial parent.

RELATIONS WITH PARENT ORGANIZATIONS

To foster relationships with parents that encourage the home and school to work together to establish and achieve common educational goals for students, the Superintendent and the professional staff will:

1. Consult with and encourage parents to share in school planning and in setting objectives and evaluating programs.
2. Help parents understand the educational process and their role in promoting it.
3. Provide for parent understanding of school operations.
4. Provide opportunities for parents to be informed of their child's development and the criteria for its measurement.

To accomplish the above and to enhance communications between parents and school officials, the Committee encourages the maintenance of formal parent organizations at each school building. For this purpose the Committee will officially recognize a parent organization at each building. These procedures will be observed:

1. Organizations will be officially recognized upon request by the building Principal who will file a copy of the organizational papers with the Superintendent.
2. A vote, open to all parents of children enrolled, will designate the organization to be recognized if more than one organization makes the request.

COMMUNITY INVOLVEMENT IN DECISION MAKING

The School Committee endorses the concept that community participation in the affairs of the schools is essential if the school system and the community are to maintain mutual confidence and respect and work together to improve the quality of education for students. It therefore intends to exert every effort to identify the desires of the community and to be responsive, through its actions, to those desires.

All citizens will be encouraged to express ideas, concerns, and judgments about the schools to the school administration, staff, any appointed advisory boards and the Committee.

Residents who are specially qualified because of interest, training, experience, or personal characteristics will be encouraged to assume an active role in school affairs. From time to time, these people may be invited by the Committee to act as advisors, either individually or in groups.

The Committee and the staff will give consideration to the advice they receive from individuals and community groups interested in the schools, particularly from those individuals and groups they have invited to advise them regarding specific problems, but will use their best judgment in arriving at decisions.

PUBLIC GIFTS TO THE SCHOOLS

The Superintendent will have authority to accept gifts and offers of equipment for the District in the name of the Committee when the gift is of educational value. In the case of gifts from industry, business, or special interest groups, no extensive advertising or promotion may be involved in any donation to the schools.

Gifts that would involve changes in school plants or sites will be subject to School Committee approval.

Gifts will automatically become the property of the school system. Any gift of cash, whether or not intended by the donor for a specific purpose, will be handled as a separate account and expended at the discretion of the Committee, as provided by law.

The Committee directs the Superintendent to assure that an appropriate expression of thanks is given all donors.

PUBLIC'S RIGHT TO KNOW

Pupils, parents and the general public shall be dealt with in full conformity with the state and federal laws defining the rights and privileges of the individual.

The School Committee is a public servant, and its meetings and records will be a matter of public information except as such meetings and records pertain to individual personnel and other classified matters.

The School Committee supports the right of the people to know about the programs and services of their schools and will make every effort to disseminate information. All requests for information will be acted on fairly, completely and expeditiously.

The official minutes of the Committee, its written policies and regulations, and its financial records will be open for inspection at the office of the Superintendent by any citizen desiring to examine them during hours when the office is open. No records pertaining to individual students or staff members will be released for inspection by the public or any unauthorized persons by the Superintendent or other persons responsible for the custody of confidential files. The exception to this will be information about an individual employee (or student) that has been authorized in writing for release by the employee (or student, or student's parent).

In addition, the School Committee meeting schedule, agenda and minutes will be posted on the Canton Public Schools website.

Each building administrator is authorized to use all means available to keep parents and others in the particular school's community informed about the school's program and activities.

PUBLIC COMPLAINTS

When a staff member receives a complaint, the School Committee expects the professional staff to do so courteously and to make an appropriate reply to the complainant.

The School Committee believes that complaints and concerns are best addressed and resolved as close to their origin as appropriate to the circumstances. Thus, the Committee encourages individuals to present and discuss any complaints they may have with the staff member against whom the complaint is directed whenever appropriate. If the individual is not comfortable addressing the matter with the staff member, or if the matter remains unresolved after doing so, the individual may address the complaint to the Building Principal or to the Superintendent of Schools.

Whenever a complaint is made directly to the School Committee as a whole or to a School Committee member as an individual, it will be referred to the Superintendent or designee for study and possible solution. Exceptions will be made when the complaint concerns only School Committee actions or operations or the performance or conduct of the Superintendent.

Should dissatisfaction remain after the above steps have been taken, the complainant may contact the School Committee Chair, who shall arrange for the School Committee to address the matter if the Chair deems appropriate.

COMMUNITY USE OF SCHOOL FACILITIES

It is the School Committee's desire that maximum use of school property be enjoyed by the townspeople. It is the Committee's intent that such use will maintain safe conditions and preserve the property for school program use.

Use of school buildings and other facilities by organizations will be permitted only when an educational, civic, or charitable purpose will be served; or a substantial group of citizens from the community will be benefited.

School facilities will be used according to the regulations and rental fee schedules recommended by the Superintendent and approved by the School Committee.

Permission for the use of facilities must be obtained through the office of the Superintendent of Schools, where applications are available for this purpose.

Eligibility

School facilities will be available for the following:

1. Public school activities
2. Parent-teacher activities
3. Official town public hearings and political activities
4. Meetings and activities sponsored by the School Committee and school personnel
5. Parks and playgrounds activities
6. Local nonprofit and noncommercial organization activities
7. Metropolitan civic, educational, social, and religious organization activities if a substantial portion of the members are residents of the town
8. The activities of other organizations when approved by the School Committee

School and Town Preference

The priority given requests for use of school facilities will be as follows:

1. School activities
2. Town meetings and elections over other community activities
3. Parks and playgrounds

PUBLIC SOLICITATIONS IN THE SCHOOLS

The School Committee will place limits on commercial activities and fund-raising activities in the schools for the following reasons:

1. The school system should provide students, parents, and employees some measure of protection from exploitation by commercial and charitable fund-raising organizations.
2. The school system should not give the public the impression of generally endorsing or sanctioning commercial and fund-raising activities.
3. Commercial and fund-raising activities may disrupt school routine and cause loss of instructional time.

Following these guiding statements, the Superintendent and Principals may permit occasional commercial or fund-raising activities related to the objectives of the schools with the following exceptions:

1. No direct solicitation of students or employees may take place without Superintendent permission.
2. No general or class distribution of fund-raising literature may take place without Superintendent permission.

For the purposes of this policy, parent-teacher organizations representing school system employees will be considered "school groups" and will be governed by the Committee's policy on staff solicitations.

ADVERTISING IN THE SCHOOLS

No advertising of commercial products or services will be permitted in school buildings or on school grounds or properties without permission of the School Committee. Publications of the school system will not contain any advertising. However, this will not prevent advertising in student publications that are published by student organizations, subject to administration controls, or the use of commercially-sponsored, free teaching aids if the content is approved by the administration.

Solicitation of sales or use of the name of the school system to promote any product will not be permitted by the Committee.

VISITORS TO THE SCHOOLS

The School Committee encourages parents and guests to visit classrooms to observe and learn about the instructional programs taking place in our schools. Such visits can prove most beneficial in promotion of greater school-home cooperation and community understanding of how we carry out the school system's mission and goals.

Visits by parents to several classrooms in a given grade for the purposes of comparing teaching styles to provide a basis for a request for student assignment to a particular teacher are strongly discouraged because the School District's policy of assigning a student to a particular class is the sole responsibility of the building Principal in consultation with the staff of that school.

The following guidelines to classroom and school visits should be followed:

1. Parental requests for classroom visitations will be welcomed as long as the educational process is not disrupted. To this end we request that such requests be made at least forty-eight hours in advance to allow for proper arrangements to be made.
2. The building Principal has the authority to determine the number, times, and dates of observations by visitors. This will be done in consultation with staff members so as to give adequate notice to the staff members of the impending visits.
3. For security purposes it is requested that all visitors report to the Principal's office upon entering and leaving the building and sign a guest log showing arrival and departure times. Teachers are encouraged to ask visitors if they have registered in the Principal's office.
4. Under ordinary circumstances classroom observations will be strongly discouraged during the first three weeks of school in September and during the month of June.
5. Any student who wishes to have a guest in school MUST ask permission of one of the administrative staff 24 HOURS in advance of the proposed visit. If permission is granted, the guest is expected to follow the standards of behavior expected of all students. Upon arrival the guest must register in the office. Any guest who fails to comply with student regulations will be asked to leave the school building and grounds immediately.

RELATIONS WITH BOOSTER ORGANIZATIONS

The School Committee recognizes that the endeavors and objectives of booster organizations and similar groups can be a valuable means of stimulating interest in and endorsement of the aims and achievements of our public school system.

Generally, actions initiated by boosters provide the atmosphere and climate to foster and encourage community-school relationships.

Booster-proposed plans, projects, or activities must be evaluated and promoted in light of their stated contribution to the academic as well as the athletic and fine arts programs of the schools. Care must be taken to avoid compromising or diluting the responsibilities and authorities of the School Committee.

RELATIONS WITH POLICE AUTHORITIES

Cooperation with law enforcement agencies is essential for the protection of students, for maintaining a safe environment in the District schools, and for safeguarding all school property.

Relationships between the schools and officials of law enforcement agencies in investigative matters concerning pupils will take into consideration the respective roles of the schools and law enforcement agencies in assisting and protecting the interests of the community, and ensuring the rights of all concerned.

The School Committee also recognizes the potential enrichment that law enforcement agencies can make in the educational program.

Efforts should be made to develop and maintain a healthy attitude toward law enforcement agencies and personnel to promote better understanding and communication.
